About

Work

My  
Avatar

HI, I'M SHEEN!

A passionate developer and analyst.

∨

WHAT I DO

</>

Development

I make Android Apps  
and games using Java

🔑

Analys +

I do Data Science and  
Machine Learning with Python

3 = X

Have Fun

I enjoy games and  
Mod them sometimes

(Handshake Logo)

LET'S BE FRIENDS

Whether you would like to collaborate or  
just nerd out together, just say hi!

## MY PORTFOLIO

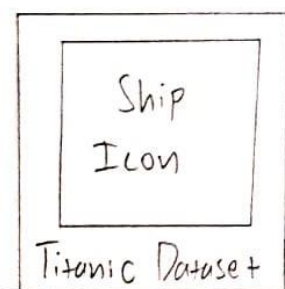

I do Android App Development as well as Data Science and Machine Learning

---

### Android Projects

### Data Science Projects

## Titanic Dataset

The titanic dataset is a competition on kaggle for getting started with prediction.

The problem...

Explanation of  
the competition  
and Dataset.

Screenshot of kaggle  
Competition Page

Observations

Explanation of  
inferences from  
data visualisations

Data Visualisation  
(Using Python Matplotlib)

More Visualisations

The solution

Explain training model used  
and features considered  
(link to observation)

Data Visualisations  
(of models)

The result

Talk about result  
and what I have  
learned

Screenshot  
of submission  
and result

## Sunshine App

The sunshine app is a weather app created under Google's Udacity Course for Android App Development.

### How it Works...

Explanation of App's functionalities

Screenshot of Home Page

### Features

Explanation of features

GIF of App's Map feature

### Implementation

Explanation of how various features and settings were implemented
